Seresin

NOTES

Biodynamic is a US registered trademark of Demeter USA.

Noted producers who are extremely natural but not biodynamic:

Paolo Bea

Castello di Lispida

Damijan

André Durrmann

Clos Rougeard (or?)

Gravner

Jacques-Frederick Mugnier

Domaine de la Mordoree ("durable agriculture")

A winery might be any of the following:

- *Certified Biodynamic*
- *Certified Demeter*
- *Practicing Biodynamics*
- *Certified Organic with some BD practices*
- *Practicing Organic with some BD practices*
- *From Biodynamically Grown Grapes*
- *Experimenting with Biodynamics*
- *A mix of Organic and Biodynamic*
- *Converting to Biodynamic*

I also understand that there are many wineries who follow the Biodynamic calendar for planting, harvesting, etc., but have not gone beyond that.
